- Evaluated and restored by experienced, specialized technicians
- Mechanically and electrically reconditioned with genuine OEC C-arm parts and software
- Select from 50+ OEC models

## Certified with comprehensive warranty

- Tested for 16+ hours
- Certified to OEC standards and design requirements
- Covered by a comprehensive, twelve-month manufacturer warranty, including glass
- Installed by a dedicated field engineer

## Ready to ship quickly

- Large inventory for quick fulfillment
- 75%+ orders shipped from facility within one business day from receipt of order\*
- On-site training provided by certified clinical application specialists after installation
- Receive service from a dedicated field engineer within 50 miles\*\*

*\*Applicable for US customers only*

*\*\*Within 50 miles of 85% of US C-arm sites*

The GE Healthcare portfolio of OEC C-arms has been helping surgeons in vascular, orthopedic, urology and emerging surgical procedures for more than 40 years. GE Healthcare's design, manufacturing, and refurbishment of OEC C-arms is headquartered in Salt Lake City, Utah, USA.

GE Healthcare's GoldSeal refurbishment program is consistent with Good Refurbishment Practice (GRP) established by leading industry trade associations such as MITA (Medical Imaging & Technology Alliance) a division of NEMA (National Electrical Manufacturers Association), COCIR (European Coordination Committee of the Radiological, Electromedical and Healthcare IT Industry) and JIRA (Japan Industries Association of Radiological Systems).

Availability of select models, configurations, and options varies by country.
